Prostat Bio

antistatic agent

technical data sheet

anti-static agents

Prostat Bio is a powerful antistatic agent for use in a wide range of applications.

TYPICAL PROPERTIES

| | |
|----------------|---|
| Appearance: | Clear mobile liquid |
| Type: | Quaternary compound |
| pH: | 6-8 |
| Activity: | 29% approx |
| Solubility: | Miscible in water in all proportions |
| Compatibility: | Compatible with most cationic and non-ionic substances. Not compatible with anionic substances. Not stable to strong alkalis. |

APPLICATION

Prostat Bio is normally diluted to 3% for use as an anti-stat although it may also be used undiluted. It is particularly effective as an anti-static agent during web offset printing.

Prostat Bio may be used in conjunction with non-ionic detergents in hard surface cleaning products.

Prostat Bio may be used on many substrates, e.g. textiles, feathers and plastics

PACKAGING

Prostat Bio is available in 25 and 200kg containers.

(OPA2/F2)

TDS: 025

Issue: 05
